### **DETAILED ACTION**

1. Acknowledgment is made in the receipt of the amendment filed June 15, 2005.

#### ***Claim Objections***

2. Claim 13 is objected to because of the following informalities: lines 8-9 recite the first and second isolating sleeves are configured to comprise the floor of the chamber. However, the sleeves appear to form a wall of the chamber and not the floor, clarification is requested.

Appropriate correction is required.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by US 4,830,395 to Foley.

Foley discloses a suspension strut unit, comprising: a cylinder 14 having an outside; a chamber 50 is provided on an outside of the cylinder, the chamber has a floor; a spring collar 38 is provided with a sleeve section 42 that is received in the chamber; a curable material (interpreted as the elastic element 64) partially fills the chamber, the element is in a solid state, the curable material will transmit a supporting force when the sleeve section is fully inserted into the chamber (it is noted that the strut is capable of being inverted); an isolating sleeve comprises a first isolating sleeve 56 outside of the sleeve section 42, and a second isolating sleeve 46

Art Unit: 3683

located between the sleeve section 42 and the cylinder 14, the first and second isolating sleeves are configured to comprise the floor and walls of the chamber.

### ***Double Patenting***

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-12 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4, 6, 7, 11 and 12 of U.S. Patent No. 6,767,010.

Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims are interpreted as obvious variants of the same invention.

7. Claims 1-12 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 3 and 4 of U.S. Patent No. 6,854,722. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims are interpreted as obvious variants of the same invention.

### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Graef, Vander Laan et al., Fiala, and Maeda each teach a strut unit with a sleeve section of a spring collar disposed in a chamber that surrounds a cylinder.

Art Unit: 3683

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
